PROFESSIONAL EXPERIENCE

Junior

EMPLOYER

February 2020 - present 2020

The start-up company I worked at recently, developed an online exhibitions platform, a new innovating approach in making exhibitions easier to attend by providing the users with opportunity of chatting, checking and advertising their products for companies and buyers, all accomplished online without the inconvenience of going to a physical venue.

Full-stack developer

EMPLOYER

December 2018 - February 2020

In that period I have made a lot of projects which included implementing complex mechanisms to achieve the most desirable result as well as working in different online platforms. During this period I've used my javascript skills at my best. And you can check them out by opening the websites down there:
